Experience

Senior Backend Engineer, Kiezpay GmbH, Berlin
Jun 2022 – Present

- Lowered p99 latency of the checkout API from 820 ms to 190 ms.
- Led the migration of 14 services from REST polling to event-driven webhooks.
- Drove engineering excellence across the team.

Backend Engineer, Spreebox Media, Berlin
Mar 2019 – May 2022

- Scaled the recommendations API to 12 million requests per day.
- Improved reliability of several systems.
- Reduced on-call pages by 60% after introducing SLO-based alerting.

Junior Developer, Elbe Software, Hamburg
Aug 2017 – Feb 2019

- Assisted senior developers with backend tasks.
- Fixed over 200 bugs in a legacy PHP codebase.

Education

MSc Software Engineering, TU Hamburg, 2015
